Object: Corporate activities following Coronavirus Covid-19 - Update

Dear customer/supplier/partner,

following the Decree of the President of the Council of Ministers of 8th March 2020

(DPCM_20200308), NTS is carefully following the measures indicated to achieve the only

necessary objective at this stage: limiting contagion.

At the moment we have reduced the presence of people across the board both within the

production departments and within the offices. However, this reduction makes it possible to

manage the essential and useful activities to guarantee the deliveries of orders. The offices are

organized by teleworking (telephone numbers remain the same as usual) and present on

alternate days in order to generate continuity of service.

If any type of problems arise, each customer / supplier will be promptly notified by our

competent offices.

All our staff have been informed and aligned on the evolution of the facts and advised on

multiple channels to comply with all the hygiene rules necessary both at the workplace and at

home.

We will update you promptly as soon as news arrives.

The CEO

Maria Nella Manzoni
